Delivery service continues to expand across the State

TORONTO, Nov. 21, 2017 /CNW/ - Liberty Health Sciences Inc. (CSE: LHS) (OTCBB: LHSIF) ("Liberty" or the "Company") announced today that it has secured locations for two additional medical cannabis dispensaries in the State of Florida that are scheduled to open in early 2018. The new dispensaries, located in St. Petersburg and Port St. Lucie, will be opened in addition to the two previously announced locations in The Villages and Fort Lauderdale. The dispensary operations and plans are being finalized and will be submitted to the Florida Department of Health, Office of Medical Marijuana Use for approval in accordance with state law.

The registered patient count in Florida continues to increase rapidly with approximately 51,000 patients registered with the State currently. This number is expected to continue to grow as more physicians recommend cannabis as a treatment option and as more Florida residents become educated on the benefits of medical cannabis to treat certain qualifying conditions. Liberty's expansion represents yet another important step in the Company's plans to offer convenient accessibility of medical cannabis to the increasing number of patients in Florida, regardless of their geographic location.

"Our dispensary locations are strategic by design," said George Scorsis, Director and CEO of Liberty. "We follow a strict geographic targeting methodology focusing on locations with a substantial population and a significant number of prescribing physicians. Liberty expects to expand the dispensary footprint aggressively over the next few months. The Villages location is on track to open in December and the Fort Lauderdale in January 2018."

In yet another initiative in Liberty's quest to increase timely accessibility to medical cannabis across the State, additional delivery vehicles have also been added to facilitate direct to home delivery. Liberty is committed to ensuring that patients have convenient and timely access to its high-quality, clean and safe pharmaceutical grade medical cannabis when patients need it the most.

"Our aggressively expanding footprint and more robust delivery offering is yet another way in which Liberty is ensuring that patients have the best access possible to our medical cannabis products and as we grow our business we are committed to ensuring that more and more of these

access points are added to our roster of services for patients in need," continued Scorsis. "Additionally, our patient-centric dispensaries, named Cannabis Education Centers, will provide comprehensive education and resources to inform patients on cannabis use as a safe alternative to treat symptoms related to several medical ailments."

About the new dispensary locations:

St. Petersburg

St. Petersburg is located on the west coast of Florida with a population of 260,000 people and lies adjacent to Tampa. The medical demographics provide a large patient pool to whom Liberty may provide its high-quality medical cannabis products.

Port St. Lucie

Port St. Lucie is located on the east coast of Florida and has been one of the fastest growing areas in the State over the last few years. Today the population is around 190,000 offering Liberty a large and growing patient pool.
