- Company to Honor Veterans by Increasing Access to Cannabis Products -

TORONTO, July 3, 2018 /PRNewswire/ - Liberty Health Sciences Inc. (CSE: LHS) (OTCQX: LHSIF) ("**Liberty**" or the "**Company**") is honored to announce its partnership with the Veterans Cannabis Project, an association dedicated to improving US military veterans' quality of life through the opportunity of cannabis.

To better provide effective treatment options for those who are serving, and have served, our country in the armed forces, Liberty is collaborating with Veterans Cannabis Project to support vital research projects focused on the treatment of service related trauma with cannabis derived products. In an effort to launch this important alliance and demonstrate the Company's commitment to, and admiration for, veterans nationwide, Liberty will offer a 25% discount on all purchases for armed forces personnel.

Veterans Cannabis Project (CNW Group/Liberty Health Sciences Inc.)

"Liberty is proud to provide support to these brave individuals through the development of state and national programs and these essential research initiatives," said George Scorsis, CEO Liberty Health Sciences. "Those who have answered the call to duty deserve no less than the very best treatment options and Liberty is privileged to serve those who have sacrificed so much for their country."

"The Veterans Cannabis Project is excited to have partnered with Liberty Health Sciences to advance veterans' access to life saving medicine, and to also tackle critical research initiatives" said Nick Etten, Executive Director of the Veterans Cannabis Project. "And we are also thankful for Liberty's support of our federal-level advocacy efforts, which includes sponsoring veterans traveling to Washington, DC, to meet with their lawmakers on this important issue."

To further celebrate servicemembers and the week of Independence Day, the Company is offering a limited supply of vaporizer products. Vaporizers are available in 250 mg Indica disposables and 500 mg Indica cartridge with battery. A portion of the proceeds will be donated to support Veterans Cannabis Project. The vaporizers will be available in stores on July 1st.

About Veterans Cannabis Project

Veterans Cannabis Project is a nonprofit organization working to improve US military veterans' quality of life through the opportunity of cannabis. The organization is dedicated to educating lawmakers and veterans about the meaningful health benefits of cannabis.

About Liberty Health Sciences Inc.

Liberty Health Sciences Inc. operates in cannabis markets focusing on improving the lives of our consumers. Liberty's stringent investment criteria for expansion maximizes returns to shareholders, while focusing on significant near- and mid-term opportunities while keeping consumers' well-being at the forefront of what we do.
